27th Annual Conference and AGM
March 26, 2020

Each year, the FSRS organizes and hosts an annual conference that allows FSRS members, fishermen, scientists, industry workers, students and the general public to meet and discuss recent research and findings within the fishing industry. This year was supposed to be our 27th annual conference and AGM, held on March 26th at the Best Western Hotel and Suites Dartmouth.

Due to COVID-19 restrictions put in place by the Provincial and Federal Government in March 2020, our 27th Annual Conference and AGM were cancelled.

Organizations who donated to our conference were contacted and refunds were offered. Those who opted for the refund had their sponsorship returned, while others chose to defer their sponsorship to next years' annual conference. The same options were given to those who had registered for the conference through Eventbrite. To thank our sponsors, logos and contributions were posted to our website.

Speakers and student poster presenters were also contacted with the intention of presenting at next years' conference instead.
